

Psychological effects of the Nice (FR) terror attack

Psychological effects of the Nice (FR) terror attack

Thank you very much for clicking through to our study on the psychological impact of the recent terror attack in Nice, France. We are most grateful for your participation!

This study aims to help us learn more about civilian reactions to terror attacks and help to devise new ways to understand this phenomena and identify civilians at risk.

This questionnaire will ask you questions about your values, media use, social relationships, political views and emotional reactions to these terror attacks. Filling out this questionnaire should take no longer than 10 minutes of your time. At the end of the questionnaire we will describe a little more about the theories we are testing in our work.

This study is being conducted under the auspices of Ariel University, led by Dr Michal Mahat Shamir (School of Social Work). The information will be held and processed for the purpose of academic research and will be accessible to academic colleagues only. All data will be strictly anonymous and confidential and will be kept securely on our servers. Your participation is voluntary and you are free to withdraw at any time by exiting your browser without giving any reason and without being penalized or disadvantaged in any way. Filling this questionnaire indicating you agree to take part in this study.

1. What is your age? (18 and up) *

2.
What your gender?

*

- Men
 Women
-

3. What is your marital status? *

- Single
 Married/Living in partnership/Cohabitation
-

4. How many Years of study do you have? *

5.
Where do you live?

*

Country/State:

City:

6. What is your religion? *

- Christian
 Jewish
 Muslim
 Other
 No comment
-

7. How willing would you be to have a non-muslim (If you are a Muslim) or how willing would you be to have a Muslim (if you are not Muslim) as a: *

	Not at all	A little bit	Moderately	much	Very much
Occasional superficial contact	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Not at all	A little bit	Moderately	much	Very much
Business partner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Guest to your home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Close friend	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- A Little
- A Moderate Amount
- Much
- Very Much
- Extremely

22. Please rate the following statements. There are no right or wrong answers.

*

	strongly disagree	disagree	Natural	Agree	strongly agree
I should have more than what I get	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The awful things that happen to me are unfair	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Things generally do not work out in the end	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	strongly disagree	disagree	Natural	Agree	strongly agree
Those who are unkind often have the most friends	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
People who do evil things get away with it	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

23. How much do you agree with the following statement: "Able to adapt to change": *

- Not true at all
- Rarely true
- Sometimes true
- Often true
- True all the time

24. How much do you agree with the following statement: "Tend to bounce back after illness or hardship": *

- Not true at all
- Rarely true
- Sometimes true
- Often true
- True all the time

Thank you very much for participating in our study. Your contribution can help to learn more about civilian reaction to terror attacks. Our study aims to test theories about the ways people's react and cope, and their political views may become pronounced during times of peril. We are also novel testing ideas about the relationships between media use, values and anxiety. If you have any further enquiries relating to this research, or wish for some more literature on the subject. please do not hesitate to contact Dr Michal Mahat-Shamir (mahatshamir@gmail.com).
